Woburn, MA 01801-4244**

Attention: Tammy Soper

Subject: Alexander Machine 2015 Supplier Excellence Award

Dear Tammy,

I am writing to inform you that Alexander Machine has been chosen to receive the Elbit Systems of America 2015 Supplier Excellence Award.

Alexander Machine has been a valued Elbit Systems of America supplier since 1993. Our teams have worked closely together for more than twenty years. Alexander Machine has provided a variety of high quality machined components over those years that have been incorporated into most of our major product lines. Alexander Machine is well known in the manufacturing industry; you have an outstanding reputation for providing quality, value and unsurpassed customer service.

To be selected for this award is rare; Elbit Systems of America, Merrimack site has only selected two suppliers to receive this type of award since 2009. To be eligible for this type of award a supplier must go above and beyond in terms of bringing commitment to quality, reliability and real value to our Supply Chain. The reason Alexander Machine stands out among our many suppliers is attributed to your unwavering commitment to quality and the cost savings measures recently implemented on all of our EVS-SP machined components. Your ability to add real value to our Supply Chain is demonstrated by the design assistance and cost savings measures implemented on EVS and EVS-SP.

The Elbit Systems of America Supply Chain and EVS team would like to thank all of the Alexander Machine employees who make this partnership and our products such a huge success. We look forward to working with you for many years to come.
